

Dodzi Kwasi Nuhoho

Infrastructure and Cloud Engineer

✉ dnuhoho2000@outlook.com ☎ +45 2713 6223 📍 Hillerød, Denmark 🌐 Dodzi Kwasi Nuhoho

PROFILE

Infrastructure and Cloud Engineer with hands-on experience across Microsoft Azure, Windows Server/Active Directory, networking, and security. Experienced in identity and access controls, infrastructure troubleshooting, security monitoring, and Azure administration, with an MSc specialization in Cloud and Cybersecurity.

SKILLS

Azure | Entra ID | Azure Policy | Azure RBAC | Bicep/ARM | Powershell/Bash | TCP/IP | DNS | VNets | Routing/Switching | NSGs | Windows Server | Active Directory | M365 | Docker | Kubernetes | Log Analytics | KQL | Sentinel | Wireshark | Vulnerability Assessment | Linux

EXPERIENCE

Part-time Technical Worker, Thiim A/S Feb 2025 – Present | Denmark

- Configure software on electronic units and support assembly and testing of monitoring equipment to quality standards.
- Operate technical equipment and embedded software tools in the preparation of electronic products.

Thesis Project, TDC Net Aug 2025 – Feb 2026 | Denmark

- Designed and evaluated automated security playbooks to improve incident detection and response in telecom environments
- Analyzed collaboration models between network operators to strengthen threat intelligence sharing
- Proposed structured response strategies to enhance efficiency in handling security incidents

Cybersecurity Internship (Remote), SenseLearner Technologies Pvt Ltd. Sep 2023 – Nov 2023 | India

- Identified system vulnerabilities through network scanning and penetration testing using Nmap, Nessus, and Metasploit
- Analyzed findings and recommended mitigation strategies to improve overall security posture.
- Documented security findings and proposed remediation improvements to reduce identified vulnerabilities.

Network Engineering Intern, Volta River Authority Oct 2021 – Aug 2022 | Ghana

- Configured and troubleshot L2/L3 switches, routers, and firewalls, optimizing routing and system uptime.
- Provided end-user IT support for Windows laptops and desktops, including hardware troubleshooting, software installation, device setup, and Microsoft 365 support.
- Supported user account administration and employee onboarding/offboarding as part of the Client Service team.

PROJECTS

Enterprise Active Directory Lab

- Designed and deployed an Active Directory environment with Windows Server 2022, DNS, DHCP, and domain-joined clients.
- Implemented Group Policy, access controls, and centralized identity management for users and devices to maintain security.
- Configured secure file services and managed permissions using Active Directory security groups.
- Performed administration and troubleshooting using PowerShell and Windows Server management tools.

Azure Cloud Infrastructure

- Implemented Azure Policy governance by creating and assigning policies for resource compliance, troubleshooting policy evaluation, and validating compliance through on-demand scans.
- Strengthened identity security by configuring Microsoft Entra ID Conditional Access and MFA to enforce authentication and access controls.
- Collected and analyzed Azure log data using Log Analytics and KQL in Microsoft Sentinel to investigate activity and support security monitoring.
- Designed Azure network segmentation by creating multiple subnets within a virtual network and configuring Azure DNS for name resolution.

EDUCATION

MSc, Communication Technologies & System Design

Feb 2024 – Feb 2026 | Lyngby, Denmark

DTU, Danmarks Tekniske Universitet

Specialization: Cloud and Cybersecurity.

Relevant Courses: Cloud Networking, Network Security, Computer Security Incident Response, Ethical Hacking.

BSc, Telecommunication Engineering

2017 – 2021 | Kumasi, Ghana

Kwame Nkrumah University of Science and Technology

Relevant Courses: Computer Networking, Data Communication.

CERTIFICATES

- | | | |
|---|---|-----------------------------------|
| • Microsoft Azure Administrator Associate AZ104 ↗ | • Microsoft Certified, Azure Fundamentals AZ900 ↗ | • ISC2 Certified in Cybersecurity |
|---|---|-----------------------------------|

LANGUAGES

English: Native Language | **Danish:** Still Learning

VOLUNTEERING

Data extraction, Claryo

Jan 2025 – Mar 2025 | Denmark

Helped extract sensor data using automated data ingestion scripts to parse structural sensor data from IO-link hardware, converting raw outputs into optimized schemas for relational **SQL database** operations.
